Volunteering is a big part of resident life. The new AFRH-G, which promotes Aging in Place, makes it easy for Bob to do his part—and then some. He shows movies, gives tours, chauffeurs residents, and sponsors newbies. Plus, he’s worked endlessly for the Fleet Reserve Association.

Bob also volunteers in the town of Gulfport leading a local food drive where residents donate to the nearby Seabee base. When a mother-in-need teared up at this kindness, he said, “Don’t be that way. We’re here to help.” Bob even mentors children and volunteers in the USO office.

His altruism began in the Navy. As a counselor aboard several carriers, he explained benefits and counseled shipmates to “motivate and point them in the right direction”.

Bob enjoys casinos, restaurants, and even napping. Yet, he always finds time to give back: “People tell me I’m too busy. Well, I don’t sit in my room and let the day go by. If I can help somebody, that’s all I care about.”

“I’m not volunteering for the recognition. I’m doing this to help.”

—Bob Rutherford (Navy)
Person-centered Care is now the driving force of staff performance at the AFRH. In large and small ways, it is helping the AFRH achieve its Mission, Vision, and Guiding Principles. Plus, it is making the Home a more wonderful place to live and work.

Still, the growth and progress of our staff depends on successfully identifying areas of improvement and making prudent adjustments. Below are two key areas where management has engineered solid progress in staff performance.

Clarifying “Person-centered”

In September 2010, the AFRH-W CARF inspection revealed the philosophy of Person-centered Care was not entirely understood at all levels in the AFRH. So, we bolstered efforts to clarify the understanding of this key principle among staff and residents throughout FY11. AFRH also launched its new Strategic Plan to hone its person-centered goals for residents, staff, and external stakeholders. This new Plan will also help guide Agency stewardship.

Further, all AFRH staff training now includes a special module on Person-centered Care. In fact, we also developed a very popular new course — Train-the-Trainer — that provides great insight and information to our instructors. We are confident these efforts will clarify our new philosophy and bring staff in line with our strategy.

Results: We successfully trained well over our target of 80% of staff. (Note: training resumed in Gulfport after a five-year closure.)

Motivating Staff

Our managers are highly motivated to deliver personalized care to every resident. So, they continually stress its importance to all staff — in verbal and written communications.

This year’s performance cycle actually began under the old Strategic Goals from FY06-10 (which didn’t emphasize the new person-centered philosophy). By the six-month mandatory progress review, our managers rewrote new performance standards to include the new FY11-15 Goals with our person-centered principles. In a sense, the new standards are a physical representation of the new direction of the AFRH. Staff expectations were clearly outlined in writing. And managers were very proactive in issuing the updated standards quickly and in reinforcing their importance verbally.

Results: 100% of staff received performance standards with new goals. (Note: This is unprecedented.)

Fiscal Year 11 Highlights

OPM regularly evaluates Federal agencies to gather trends and best practices. In turn, they share results with policy counterparts to ensure compliance with Merit Systems Plans (MSP).

OPM reviewed our first Human Capital Management Report (HCmR) in FY11 with a positive response (see sidebar at right). OPM encourages each agency to use this evaluation to assess and analyze activities, to highlight accomplishments, and to determine what worked well (or what needs to be changed).
Bill Parker takes seriously his role as Resident Action Committee (RAC) Chair and recognizes his great responsibility to Gulfport residents. Since the grand opening last October, he has been quite busy: “This has turned into a big job, for sure.”

Bill is working with the Exchange manager to make sure the store supplies essential goods that residents need—and discontinues items that residents don’t want. Another major project: bringing back some military flavor to the historic Gulfport Home. “We’re taking old military memorabilia and putting it up slowly and tactfully.” Soon, residents will enjoy their rich military history as well as the modern design touches that come with a new facility.

Bill believes that AFRH-G is a ‘Paradise’ and he is thrilled to be back home in the South. Before retirement, he owned a home here and helped build the Gulfport Yacht Club. “The food and culture are different here in Dixie. First you’re a southerner, second you’re an American.”

Past Success
All during FY06-10, the AFRH achieved noteworthy progress in its “High-priority Performance Goals”. Those Goals were geared towards the health and wellness philosophy of aging (which we established back in 2006). All in all, they served us well.

Future Strategy
Today, the heart of our new Strategy is the Person-centered Care philosophy and the Aging in Place movement. The goal of both is to keep residents independent with personalized care—while also maintaining economical and efficient operations.

Our vision to achieve Person-centered Care has sparked a new dimension in our Strategic Goals this year—Staff-Centered Environments. We believe nurturing the growth and development of our staff will empower them, both personally and professionally. Ultimately, that will motivate them to deliver better care. During FY11, the new AFRH Strategic Plan for FY11-15 was created and then rolled out. It features four high-performance strategies to help guide the AFRH to even greater success.

Since FY09, the AFRH has been tracking its net costs by Strategic Goals. This practice helps us see exactly where our resources are being spent. Below is a chart that shows the trends over the past three years based on Strategic Goals FY06-10. Spending on Exceptional Service (to Residents) is well beyond 80% of all expenditures. Also we saw increased spending on staff development over the last three years.

I In her 90 years, Ardith has never had a dull moment, it seems. She describes both herself and her 20 years in the Navy as “adventuresome.” During World War II, she had a legal assignment in Hawaii for the Pacific Fleet. “Once, I bummed a flight to Japan just to sightsee.” Her adventures have continued, long after retirement from the Navy. Ardith has been on many white water rafting trips as well as dozens of hiking expeditions. “I got hooked on it. Nature is just so beautiful.” Other adventures include bicycling in Death Valley and getting involved with Elderhostel, an organization that facilitates travel and education programs for seniors all around the world.

Today, Ardith maintains good health by eating healthy, doing needlepoint, and participating in AL activities at AFRH-G. A few years ago, she served as a leader of resident educational programs. In one program, her group assembled a dulcimer from a kit and learned how to play it.

“I’ve been white water rafting down the Grand Canyon 10 times!”

PERFORMANCE MEASURES

For the past five years we have surged well past 80% achievement in our performance measures. This year, we only have 1 measure that has not been met: Trust Fund Growth. The reason is well founded. AFRH-Washington is in the midst of extensive spending on capital improvements. The Scott Project will reduce the Trust Fund balance, as expected, yet our goal is to replenish those funds in a few years.

### MOVE-IN: Gulfport

The opening of the new Gulfport facility was a unique event. From October 2010 through this past summer, the population went from zero to nearly 500. Two separate move-in surveys were given to new residents (we did not include former Gulfport residents).

- One survey from January - June 2011 netted 62 responses when the majority of the new residents arrived.
- From June through the end of the fiscal year, we only had nine residents and used a different set of questions.

**Results (January — June):**

- Q: Overall, Did move-in service meet or exceed your expectations?
  - YES: 62
  - NO: 0

**Comments:**
- "Exceeded expectations", "wonderful services", "WOW!"

**Results (July — September):**

AFRH was above average on all aspects of moving in.

**Comments:**
- "I think everyone is doing just a fine job of making this ‘Home’ a comfortable experience."

Note: the Washington campus is in a transition period due to the Scott Project. Also, it has a reduced population as former Gulfport residents returned to their Home.
The annual Employee Evaluation Survey was administered in September 2011. Response rate from 281 employees for all of AFRH: 62%. Overall, 73% of staff members rated “Working at AFRH” better than average.

**Results:** The Majority of staff AGREE working at AFRH is “very good” or “better”. These results meet our standard. However, some management problems that we resolved remind us constantly to work harder with staff to make their job more satisfying.
Jim’s father sailed for nearly 50 years in the US Navy. “Dad’s ship was torpedoed in WWI, and he was stranded on a life raft for 11 days after the Armistice was signed.” Later, he took young Jim to the original Naval Home in Philadelphia, which inspired him to join. First, Jim attended the Gulf Coast Military Academy, which was located on the same site as AFRH-Gulfport. Then, he finished high school nearby in 1942 and entered the Navy. “The Navy was the best. I went to North Africa on shore duty in ’67, visited French Morocco, and rode a spade.” Jim served on four diesel submarines during the Cold War. “I finished my career inspecting submarines at SubPac out of Pearl Harbor.” Since then, he’s run into a few old schoolmates living here at the Home. At 81, Jim enjoys swimming in the new pool and strolling along the shoreline. “It’s absolutely wonderful. You couldn’t find a better place.”
