AFRH Chief Operating Officer Fact Sheet No. 6

Subject: AFRH-Washington's Dental Hygienist Position Filled

Applicability: AFRH-Washington Residents

The Armed Forces Retirement Home-Washington hired a Dental Hygienist who arrived for duty on August 25, 2003. When the Dental Hygienist completes orientation she will be working full time in the Dental Clinic. Additionally, the possibility of a partnership with the Veterans Administration's (VA) dental service is also being actively investigated. The VA partnership initiative could provide added dental care for our residents.

We are currently in the process of evaluating space and working with the design architect for the Dental Clinic's future move to the Scott Building. Locating the Dental Clinic in the Scott Building will give residents easier access to dental care.

TIMOTHY C. COX
Chief Operating Officer
