PROPOSED FISCAL YEAR 2020 APPROPRIATIONS LANGUAGE

ARMED FORCES RETIREMENT HOME TRUST FUND

For expenses necessary for the Armed Forces Retirement Home to operate and maintain the Armed Forces Retirement Home--Washington, District of Columbia, and the Armed Forces Retirement Home--Gulfport, Mississippi, to be paid from funds available in the Armed Forces Retirement Home Trust Fund, \$64,300,000 [\$64,300,000], of which \$1,000,000 shall remain available until expended for construction and renovation of the physical plants at the Armed Forces Retirement Home – Washington, District of Columbia, and the Armed Forces Retirement Home – Gulfport, Mississippi: *Provided*, That of the amounts made available under this heading from funds available in the Armed Forces Retirement Home Trust Fund, \$22,000,000 [\$22,000,000] shall be paid from the General Fund of the Treasury to the Trust Fund.

FISCAL YEAR 2020 BUDGET REQUEST

The Armed Forces Retirement Home (AFRH) fiscal year (FY) 2020 operating budget request is \$64,300,000 in total budget authority and 363 full-time equivalent (FTE) personnel.

AFRH's operation and capital improvement expenditures are supported from funds appropriated by Congress and withdrawn from the AFRH Trust Fund. The FY 2020 operating budget request supports AFRH's mission to provide independent living and upper levels of care for retired and certain former enlisted, limited duty officers and warrant officers of the Armed Forces, many of whom are disabled and have lower incomes. AFRH will continue to pursue operating efficiencies to absorb anticipated cost of living increases in Federal salaries and contracts as well as additional residents advancing to upper levels of care, however many AFRH services are mandated by law and residents are supported regardless of their ability to pay for the services they receive.

REQUEST FOR GENERAL FUND SUPPORT

Despite transfers from the General Fund of the Treasury in FYs 2016-2019, and improvement in the Trust Fund balance, dedicated income streams and initiatives to generate additional revenue and cut costs are not sufficient to support FY 2020 operating expenses. Therefore, in FY 2020 AFRH requests \$22,000,000 be transferred from the General Fund of the Treasury to the AFRH Trust Fund, without which the AFRH will not have sufficient income to offset non-discretionary outlays and will therefore draw on the Trust Fund balance to support operations. AFRH and DOD are working diligently to generate additional revenue and operating efficiencies without disrupting services to residents. If these initiatives are successful, General Fund support in future years can be reduced or eliminated.

QUARTERLY REPORT ON TRUST FUND STATUS AND LEASING

In accordance with House reports 115-673, 115-188, 114-497, and 114-92, at the end of the first quarter of fiscal year 2019 (December 31, 2018) the unobligated Trust Fund balance was \$36,653,746. Quarterly receipts totaled \$11,126,900 and expenditures totaled \$11,997,128.

Regarding efforts to lease 80 acres of property on the Washington, D.C. campus, AFRH issued a request for proposals in May 2018 which encouraged plans that maximize revenue while providing enhancements for AFRH residents and the surrounding community. AFRH received responses until October 2018 and with support from the General Services Administration, is reviewing the bids with the goal of selecting a developer in mid-2019.

SOLVENCY AND SUSTAINABILITY

This section responds to congressional reporting requirements for proposals and updates on progress to stabilize the trust fund and ensure the long-term sustainability of AFRH:

- House Reports 115-673, 115-188, 114-497, and 114-92
- Senate Reports 115-130 and 114-237
- The Joint Explanatory Statement accompanying H.R. 5325 (Public Law 114-223)

SOLVENCY PLAN

In July 2018, AFRH leadership, with guidance and support from DOD, developed a three-year strategic plan focused on stabilizing the organization and restoring the long-term sustainability of the trust fund. A summary table of the goals, objectives, and initiatives established in that plan is provided on the next page.

Summary Table, AFRH Strategic Plan 2019-2021

	Strategic Goal	Objective	Initiative			
1	Strategic Goal 1 – Quality	Care First and Always				
1.1	Achieve an occupancy rate of 90 percent or better					
1.1.1	Expand eligibility criteria	Expand eligibility criteria to serve additional veterans				
1.1.2	Admit spouses when spa	ce is available				
1.1.3	Modernize residential fac	cilities				
1.2	Reorganize healthcare se	rvices for optimum income potential				
1.2.1	Ensure staffing is right-siz	zed and professionally diverse				
1.2.2	Develop plans for care ga	ps				
2	Strategic Goal 2 – Stewar	dship at Our Core				
2.1	Turn underused property	into productive assets				
2.1.1	Execute a ground lease o	n the AFRH-Washington development	zone			
2.1.2	Execute an adaptive reus	e lease on the AFRH-Washington Gran	t Building			
2.1.3	Generate additional rent	from underutilized buildings, quarters	, and ancillary uses			
2.1.4	Offset cost and increase	usage of Washington green space				
2.2	Transition to a cost-base	d resident fee model				
2.2.1	Implement service cost b	udgeting				
2.2.2	Reform hardship assistar	ce and gross income calculations				
2.2.3	Institute cost transparen	су				
2.3	Implement local budgeting	ng and individual financial performance	e factors			
2.3.1	Implement operational-le	Implement operational-level budget formulation and execution processes				
2.3.2	Include financial management as a factor in employee performance evaluations					
2.4	Streamline administrative activities					
2.4.1	Evaluate interagency agreements for administrative services					
2.4.2	Consolidate and reorgan	Consolidate and reorganize recurring reports				
2.4.3	Improve policymaking pr	ocesses				
3	Strategic Goal 3 – Consta	ntly Evolving				
3.1	Continue to reform leade	ership and succession planning				
3.1.1	Transition procurement of	oversight and other functions to the De	eputy COO			
3.1.2	Establish a Director of Administration and Finance					
3.2	Improve staff recruitment, engagement, and retention					
3.2.1	Communicate and coordinate					
3.2.2	Leadership and professional development					
3.3	Establish gifts and estates as a major source of support					
3.3.1	Update gifts and estates policies					
3.3.2	Develop a fundraising capacity					
3.3.3	Build fundraising partnerships					
3.3.4	Develop an estate progra	m				

The financial model has been insufficient to cover AFRH annual expenditures, resulting in annual withdrawals from available trust fund balances and appropriated support from the General Fund of the Treasury for fiscal years 2016-2019. This occurred due to AFRH's largest revenue stream, fines and forfeitures, declining 49 percent since FY 2009; active duty withholding declining by 11 percent due to multiple factors; investment income declining by over 90 percent; and facility construction. The trust fund balance has been depleted to the point where it can no longer support AFRH operations and must be restored through a series of reforms over multiple years to create a sustainable path for the future of the institution and the mission it serves.

IMPROVING LEADERSHIP AND MANAGEMENT

During FY 2018, DOD and AFRH continued actions to improve leadership and management of the agency. In November 2017, DOD appointed a chief executive officer (CEO) to manage the Department's day-to-day oversight of AFRH. In February 2018 the CEO appointed a new chief operating officer (COO), a retired Army with experience managing retirement facilities and historic property. After being vacant for nearly a decade, the Deputy COO position was filled and assigned responsibility for procurement oversight. The Washington, D.C. campus Administrator was replaced with a retired military officer with career-long experience in healthcare administration. Additionally, DOD provided leadership support by assigning a senior executive to AFRH's 80-acre development project on its Washington, D.C. campus, and an accomplished executive to improve financial management and controls.

LEVERAGING AFRH FOR NEW LONG-TERM REVENUE

In 2008, following years of effort, the National Capital Planning Commission approved a master plan for the AFRH-Washington campus in coordination with the District of Columbia Government and the Advisory Council on Historic Preservation allowing over four million square feet of mixed-use building development on 77 acres of the eastern portion of the campus with the goal of generating leasing revenue for the AFRH. Actual development of the property ceased after negotiations with the selected developer stalled due to its bankruptcy following the 2008 financial crisis and AFRH management's lack of strategic planning for the future of AFRH solvency.

Since 2008, AFRH's attempts to restart development activities proved unsuccessful due to continued weakness in the real estate market and inability to execute statutory leasing authority with the DOD. In 2017, Congress adopted a legislative proposal which clarified leasing authority to allow development to begin in earnest. AFRH submitted an amendment to the master plan including additional acreage to the development zone encompassing a decommissioned heating plant, bringing the total land area for development to 80 acres.

AFRH issued a request for proposals in May 2018 which encouraged plans that maximize revenue while providing enhancements for AFRH residents and the surrounding community. AFRH received responses until October 2018 and with support from the General Services Administration, is reviewing the bids with the goal of selecting a developer in mid-2019.

In addition to the development zone, AFRH leadership moved aggressively in fiscal year 2018 to generate revenue from existing property assets, including:

- Parking: AFRH reached agreement with the Washington D.C. Veterans Affairs Medical Center to lease over 300 parking spaces in the development zone at a \$420,000 annual starting rate. A similar arrangement is under negotiation with an adjacent private hospital.
- <u>Special Events</u>: AFRH entered into a revenue sharing arrangement with the Lincoln Cottage Foundation to make spaces on the Washington campus available for event rental: Quarters One, Stanley Chapel, and

- an open lawn south of the Lincoln Cottage. Pilot events were held in 2018 and the spaces will be marketed in 2019.
- <u>Charter School</u>: The Creative Minds International Public Charter School (CMI) leases approximately twothirds of the Sherman Building where the AFRH agency headquarters is located. In 2018 AFRH signed an agreement to extend the school's 10-year lease to 30 years, which ends in July 2045. This longer term lease will facilitate the school to obtain financing for capital improvements to the leased space.
- Government quarters: In 2018 AFRH executed market rent leases in two government-owned houses, more than doubling lease revenue. We expect additional quarters to become available in 2019, with the goal of reaching market rent for all quarters in 2020.

IMPLEMENTING A SUSTAINABLE RESIDENT FEE MODEL

AFRH's mission is to serve our Nation's eligible veterans regardless of their ability to pay for the services they receive. Low- to moderate-income housing is underserved in the seniors housing market overall, but particularly in the Washington metro area, and AFRH fills some of that demand. The median income of AFRH residents was \$40,000 in November 2017. However, resident fees are capped by law at a percentage of income or a maximum monthly amount. Seventy-six percent of current residents are housed in the independent living level of care. In fiscal year 2018, the maximum fee was the lower of 40 percent of gross income or \$1,458 monthly (\$17,496 annually) while AFRH's average cost per independent living resident was \$3,054 monthly (\$36,648 annually), resulting in an annual subsidy of at least \$19,500 per resident including 25 percent of residents with gross incomes above \$58,000.

In April 2018, AFRH announced a new resident fee structure which would have tied maximum fees to the cost for each level of care; increased percentage-based fees in independent living and assisted living; and decreased percentage-based fees in long-term care and memory support. Congress responded to the proposal in the FY 2019 National Defense Authorization Act by agreeing with the cost-based approach to maximum fees, but required a three-year phase-in and authorized relief for residents unable to afford increased fees. The first phase of the plan took effect in January 2019, with independent living fees rising from 40% to 46.7% of income and the maximum fee rising from \$1,458 to \$1,990. After analyzing occupancy trends and further feedback from residents, in January 2019 AFRH management announced a further revision to the fee structure, extending the phase-in for current residents from three years to five and freezing the independent living percentage-based fee at 46.7%.

Using New Tools

- Soliciting Contributions: AFRH received legislative authorization in the FY 2019 National Defense Authorization Act to solicit gifts and donations. While AFRH could previously accept gifts, including estate gifts from residents and others, legislation did not allow soliciting contributions although many other Federally-chartered entities have such authority. Private giving is a key funding source for non-profit retirement communities and veteran service organizations, an opportunity which AFRH had been unable to pursue. In January 2019 AFRH executed a fundraising consulting contract to develop a fundraising strategy and policies to ensure solid accounting and ethical fundraising practices.
- <u>Healthcare Reimbursements</u>: AFRH management worked closely with DOD throughout 2018 to develop a legislative approach that would facilitate AFRH receiving reimbursement for some of its \$21 million in healthcare expenditures. As a Federal agency, AFRH is currently unable to receive reimbursement from sources such as Medicare, Medicaid, TRICARE, and Veterans Health Benefits. AFRH residents are effectively paying twice for healthcare: once through these earned benefit or paid premium programs, and in some cases through private insurance, and twice through AFRH resident fees that help to pay for services mandated to include primary medical, dental, and a continuum of care.

TRIENNIAL INSPECTION COMPLETED

In 2018 the DOD Inspector General completed its statutorily mandated triennial inspection of all AFRH operations. The first phase report covering healthcare services was released in December 2017 (DODIG-2018-034). The second phase report covering procurement and finance was released in February 2018 (DODIG-2018-077). The third phase inspection covering operational areas (human resources, information technology, security, facilities management, etc.) was released in September 2018 (DODIG-2018-153).

FISCAL YEAR 2018 PERFORMANCE

In fiscal year 2018 AFRH successfully executed two of its four agency strategic goals: embracing resident-centered care and promoting staff-centered environments. Performance fell short in the two remaining strategic goals:

- Maintaining Exceptional Stewardship: While AFRH technically met its performance metrics to achieve an
 even balance of budgetary resources versus obligations and for positive growth in the trust fund, it would
 not have done so without the \$22 million appropriated transfer from the General Fund. For that reason,
 AFRH leadership does not consider the goal met and is working diligently to identify new sources of
 revenue, operating efficiencies, and legislative proposals to return the trust fund to long-term solvency.
- <u>Leveraging External Stakeholders</u>: AFRH continued outreach efforts to attract new residents and boost occupancy, however new admissions did not keep pace with departures—some of which were attributable to the revised resident fee structure announced in April 2018 which went into effect January 2019. As a result, AFRH did not achieve the stated performance metric of a 5% increase in occupancy over the previous year.

For further information on AFRH performance and initiatives, see the Performance and Accountability Report for fiscal year 2018 at https://www.afrh.gov/PAR/2018PAR.

BUDGET DETAIL

ARMED FORCES RETIREMENT HOME SPENDING AUTHORITY BY ACTIVITY (Dollars in Thousands)				
	FY 2018 Actual <u>Amount</u>	FY 2019 Enacted <u>Amount</u>	FY 2020 Request <u>Amount</u>	FY 2019 - FY 2020 Increase / (Decrease) <u>Amount</u>

Full-Time Equivalent Personnel	285	336	363	27

SALARIES & RELATED EXPENSES

AFRH's FY 2020 budget request for salaries and related expenses fully supports the agency's mission requirements. AFRH identified cost savings opportunities to support a straight-line budget while absorbing anticipated increases in Federal salaries and benefits.

SALARY & RELATED EXPENSES				
	(Dollars in Thousands)			
FY 2019 Enacted		FY 2020 R	Requested	
Full Time Equivalents	Budget Authority	Full Time Equivalents	Budget Authority	
336	\$28,000	363	\$28,000	

FULL-TIME EQUIVALENT PERSONNEL

AFRH's FY 2020 request includes a 363 full time equivalents (FTE) employment level. This provides AFRH with the ability to transition contract support positions to government FTE positions to yield savings, principally by reducing overtime.

STAFFING HISTORY (Dollars in Thousands)				
FISCAL	SALARIES &			
<u>YEAR</u>	BENEFITS	<u>FTE</u>		
2007	\$ 22,460	288

FOOTNOTES:

^{*} Reopening of AFRH-G Facility after Hurricane Katrina destruction in 2005 and reshaping of AFRH-W workforce.

^{**}Additional FTE requested to implement HHS recommended 4.1 hours per day for upper-level care residents.

INCREASES / DECREASES BY OBJECT CLASS

The table below describes the differences between the FY 2019 appropriation and the FY 2020 request. This budget request will allow AFRH to continue providing residency and support services to achieve the Administration's government-wide management initiatives within agency operations.

	TOTAL BUDGET BY OBJECT CLASS (Dollars in Millions)				
	Major Object Class	FY 2018 Obligated Expenditures	FY 2019 Estimated	FY 2020 Estimated	
11	Personnel Compensation	\$ 17	\$ 21	\$ 21	
12	Personnel Benefits	7	7	7	
13	Benefits, Former Personnel	0	0	0	
23	Communications & Utilities	3	4	4	
25	Other Services	28	29	29	
26	Supplies & Materials	1	2	2	
32	Land & Structures	1	1	1	
TOTAL BUDGETED		\$ 59	\$ 64	\$ 64	
TOTA	AL FULL-TIME EQUIVALENTS	285	336	363	

Changes anticipated for FY 2020 appropriations

• Personnel Compensation and Full-Time Equivalents

Increases support estimated Federal pay increases included in the Administration's pay assumptions and additional FTE to support in-sourcing from contract labor. For FY 2020, 27 positions were requested to a new authorized FTE of 363. Combined, these efforts are expected to have a positive impact on the Trust Fund of \$1,268,000, as well as support \$2-\$3 million in new revenues. Anticipated savings cannot be fully realized in the budget until actions are implemented with contracts revised or cancelled and FTEs filled. FY2020 is expected to be a transition year, and FY2021 will resolve the implementation of changes.

- 1. <u>Nursing Staff</u>: The conversion of contractor positions to 15 FTE in nursing will deliver a reduction in costs at both campuses for a total savings of approximately \$775,000.
- 2. <u>Dental</u>: AFRH-Washington plans to hire 3 FTEs to more effectively deliver dental care at a savings to the Trust Fund of more than \$225,000 annually.
- 3. <u>Business Offices</u>: 2 FTEs are needed (one in each campus) for business engagement analysis and accountability over residents' fees, assets, and in association with new income determinations and revenue sources. The estimate to additional income from these benefits (\$1,000-\$2,000 per resident) is approximately \$2M \$3M.
- 4. <u>Security</u>: Converting AFRH-Washington security from contractor to 7 FTEs is expected to save \$268,000 annually.

Other changes in expenditures from FY 2018 over current and FY 2020 expectations include:

- <u>Communications & Utilities</u>: Reflects increases on AFRH-G utility rates.
- Other Services: Reflects inflation factors included in contract agreements.
- <u>Supplies & Materials</u>: Reflects the need for updating materials that support marketing including publication materials, advertising, and website updates.

FUTURE BUDGETARY CONCERNS

SUSTAINING CAPITAL INVESTMENTS AND MAINTENANCE

Since FY 2015, AFRH has operated with a \$1,000,000 annual budget for capital construction and renovation. The current appropriations language can be interpreted as only allowing AFRH to spend up to \$1,000,000 on capital improvement. The balance sheet value of AFRH's property, plant, and equipment (PP&E) was \$316 million as reported in AFRH's FY 2018 Performance and Accountability Report, after a \$10.8 million depreciation charge. This equates to a capital expenditure ratio of only 0.3%. By comparison, a 2016 senior living industry report showed average capital expenditures per unit of \$6,151 for continuing care retirement communities nationwide¹. AFRH expends less than \$900 per unit.

AFRH management is concerned that current capital investment is not sustainable given the 24-hour operation of AFRH facilities and the age and historic significance of the AFRH Washington property. Outdated and deteriorating facilities have a negative effect on AFRH's ability to attract and retain residents and low occupancy levels exacerbate AFRH's financial problems by reducing fee income and driving higher fixed costs per resident.

AFRH's total deferred maintenance currently stands at an estimated \$135 million, including \$15 million in mandated life and safety improvements and \$500,000 in recurring annual expenses to support leasing of underutilized property and other requirements. If unaddressed, this backlog will threaten AFRH's continued operation and force more expensive replacements in future years. The following table lists top projects by dollar value and priority.

Top 5 Projects by Dollar Value		Top 5 Projects by Priority	
Sherman Bldg—All Updates	\$ 39,700,000	Electrical Infrastructure	\$ 7,500,000
Sheridan Bldg—All Updates	22,700,000	Water and Sewer Infrastructure	6,500,000
Roads and Parking Improvements	9,600,000	Sheridan Bldg—Roof Replacement	1,800,000
Electrical Infrastructure	7,500,000	Sheridan Bldg—Elevator Replacement	1,700,000
Gulfport Building Updates	6,800,000	Chiller and Water Pump Replacement	1,500,000
Total	86,300,000	Total	19,000,000

Capital Maintenance and Replacement

AFRH has delayed urgently needed repairs and replacements to infrastructure systems which directly affect life safety. Without these capital investments, AFRH will not be able to maintain safe, efficient, and habitable facilities indefinitely. Priority projects include:

- <u>Electrical Infrastructure</u>. Replace 1950's power distribution and switch gears for parts that are no longer manufactured.
- <u>Water and Sewer Infrastructure</u>. Replace 80+ year old leaking underground piping for entire Washington campus.
- <u>Sheridan Building Roof and Elevators</u>. Replace original 58-year-old leaking roof and elevator equipment for main residential building on Washington campus.

¹ "Actual vs. Budgeted Capital Expenditures Per Available Unit by Property Type" (Table 12.7A, p. 85), State of Seniors Housing 2016, American Seniors Housing Association.

Capital Improvements

AFRH's limited maintenance budget has led to unattractive living quarters in poorly maintained condition which deters paying tenants and financially capable residents. Comparatively small investments can substantially improve marketability for these valuable assets. AFRH intends to integrate some of these updates and renovations with the necessary safety and health projects on the deferred maintenance list. While items on the deferred maintenance list are required by OSHA and accreditation requirements, the primary driving force is the government's responsibility to maintain a safe and healthy environment for the disabled veterans in its care, and to sustain the infrastructure that supports them. The improvements highlighted below represent an example of urgent and time-sensitive needs.

• Resident Room Improvements. The 2019 National Defense Authorization Act approved AFRH to admit spouses with their eligible veterans. Resident rooms at the Washington campus are currently designed for single occupancy with only 280 square feet per room. To support the anticipated arrival of couples, the Washington campus needs to convert rooms by combining single rooms into larger rooms capable of accommodating couples. One prototype reconfiguring two single rooms into one couples room is complete and a second prototype to reconfigure three single rooms into two couples' rooms is underway. Additionally, single resident rooms were last updated in the 1990's. Outdated and deteriorating bathroom fixtures, electrical components, and flooring are in need of replacement.

<u>Project</u>	Per-Unit Cost Estimate
Single Room Modernization	\$10,500
Two-to-One Conversion	\$32,700
Three-to-Two Conversion	\$38,300

AFRH management plans to modernize or convert at least 87 of the Sheridan Building's 486 existing rooms at a total cost of approximately \$2.6 million, phased over multiple years.

• Government-Owned Quarters Investments. With an investment of \$300,000 in four government-owned quarters, AFRH projects to increase annual rental income from \$39,720 to \$115,200, a 25 percent return on investment in the first year. AFRH recently invested \$30,000 updating one vacant government-owned quarters. When last leased the quarters earned \$1,590 rent per month. After improvement it leased for \$3,500 rent per month, a 120 percent increase and a 76 percent return on the \$30,000 investment in the first year.

TRUST FUND SOLVENCY

Congress has supported elements of AFRH's strategic plan to reach long term solvency by expanding eligibility categories to attract residents, including spouses; clarifying leasing authority to facilitate new income from underutilized property; permitting solicitation of gifts; and tying maximum fees to cost of care. Many of these strategic goal elements will require near-term investments of cash and resources to generate long-term returns, and AFRH management's access to and flexibility of funds will be critical to reaching solvency without continued general fund appropriations. AFRH management understands and agrees with Congress' desire to impose spending limits on Trust Fund assets, however we are working to resolve a number of resulting challenges:

- The mandatory nature of our round-the-clock operations and expenses to preserve the health and safety of our high-risk residents
- Operation and maintenance authority frozen at \$63.3 million since FY 2016, while AFRH continues to absorb inflation increases in personnel compensation and operating costs

- High levels of resident services mandated by statute and settlement, restricting cost savings opportunities or aligning to industry standards
- Limited construction and renovation funding authority, which saves funds in the short term but compounds in the long term

AFRH – DC 1938 WATER AGREEMENT

On January 9, 2018, DC Water filed a lawsuit in the United States District Court for the District of Columbia which was subsequently transferred to U.S. Court of Federal Claims on September 12, 2018. The lawsuit alleges non-payment for sewer services that DC Water provides to the buildings on AFRH-W's grounds. DC Water alleges that the fair market value of the services provided to AFRH since January 22, 2010 is \$12,000,000. Both DOD and AFRH believe the 1938 agreement is valid, and covers the cost of sewer services. Should DC Water's claim be approved, this would represent a liability against the Trust Fund or a claim against appropriated dollars.

Independent Living Plus	42,835		
Assisted Living	107,634		
Long Term Care	124,954		
Memory Support	127,513		

APPENDIX 3: AFRH ORGANIZATION

AFRH is an independent establishment in the Federal Executive Branch established under Title 24 U.S.C. Chapter 10. The agency encompasses two Continuing Care Retirement Communities (CCRC) offering increased levels of care as resident need additional services. As required by law, AFRH facilities provide onsite medical care services and transportation of residents to DOD and Veterans Affairs health facilities near each campus. In February 2017, the Deputy Secretary of Defense transferred oversight responsibility from the Assistant Secretary of Defense for Manpower and Reserve Affairs to the Deputy Chief Management Officer (DCMO). In November 2017, the DCMO established a new Chief Executive Officer (CEO) position to exercise DOD's oversight responsibilities on a full-time basis.

AFRH has two locations—Gulfport, MS (AFRH-G) and Washington, DC (AFRH-W). Both facilities are modern offering full services and a small house concept in upper levels of care. The upper-level of care small house concept contributes to AFRH's vision of Person-centered Care by meeting individual resident's needs in a home-like setting at a reasonable cost.

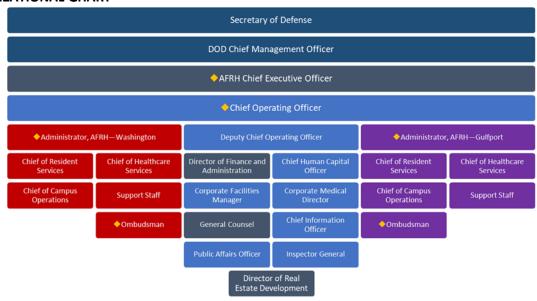

AFRH-G (GULFPORT, MS)

The AFRH-G facility is located on approximately 40 acres of land on the Mississippi Sound. The resort towns of Gulfport and Biloxi as well as Keesler Air Force Base and other government facilities are in close proximity. The Gulfport community has been home to former enlisted, limited duty officer and warrant officer service members since 1976 when the Naval Home relocated to Gulfport from Philadelphia, Pennsylvania.

AFRH-W (Washington, DC)

The AFRH-W facility is located on 272 acres in the heart of the Nation's capital. The campus has been home to thousands of former enlisted, warrant officer and limited duty officer service members since 1851. The campus is also home to President Lincoln's Cottage at the Soldiers' Home and the Creative Minds International Public Charter School.
