**Statement from the Armed Forces Retirement Home (AFRH) on staff members testing positive for Coronavirus**

**Update – May 14, 2020**

On May 11, 2020, a staff member assigned to the long-term care unit at the AFRH-Washington, D.C. campus tested positive for COVID-19. This staff member has not been at work since May 2, 2020. AFRH conducted contact tracing, notified all who are believed to have been in contact with the staff member, and had them tested. All test results received were negative.

As of May 14, 2020, no AFRH resident has tested positive for COVID-19.
